

# Pesach Prince/Princess Crowns

There are four sections to the crown:

## A. The front

## B. The back

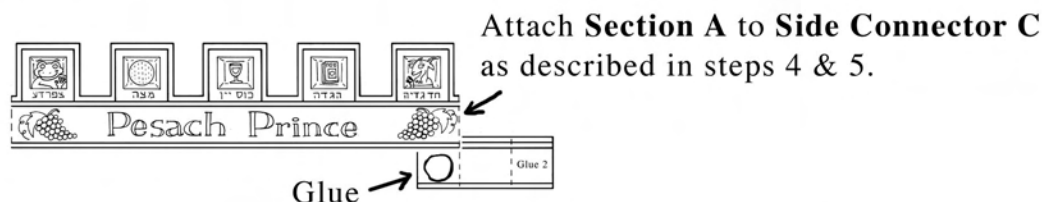

## C & D. Side Connectors

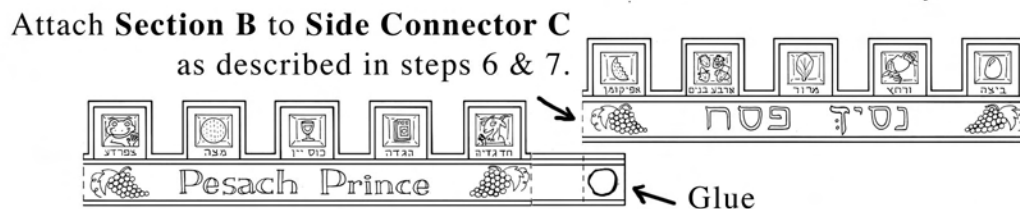

Instructions:

1. Print sheet at full size at landscape, or horizontal format.
2. Color in all sections of the crown.
3. Cut out each section of the crown (A, B, C and D).
4. Put glue on the 'Glue 1' tab of **Side Connector C**, up until the dotted line.  
\*For smaller heads you may need less of the connectors, or no connector at all. (For no connector, tape **Sections A & B** together in the back or glue together using the connectors by putting glue on the connectors & covering completely with **Section A & B**.)
5. Place the glued section of the side connector behind the right side of **Section A** (English side of the crown), in line, so all the glue is covered (until the dotted line).

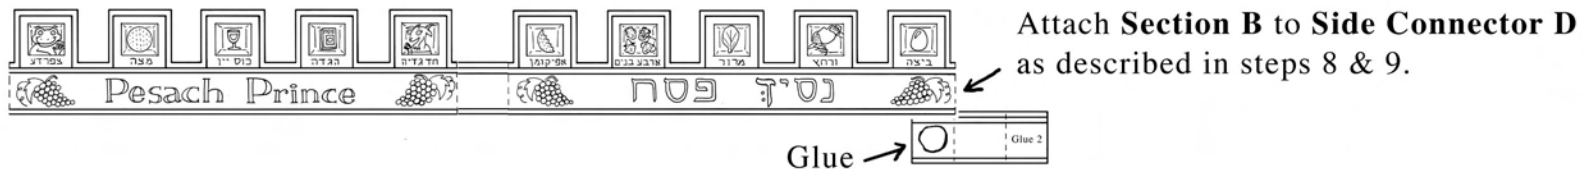

6. Put glue on the '**Glue 2**' tab of **Side Connector C**, up until the dotted line.
7. Place the glued section of the side connector behind the left side of **Section B** (Hebrew side of the crown), in line, so all the glue is covered (until the dotted line)

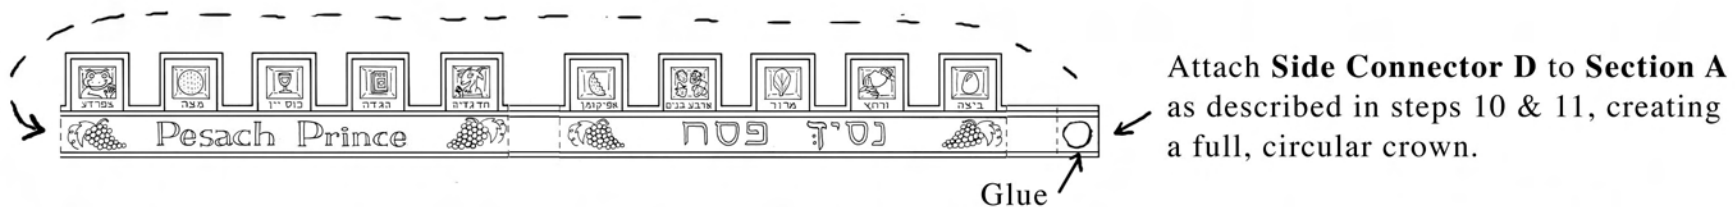

# Pesach Prince/Princess Crowns

## Instructions (Continued)

- Put glue on the 'Glue 1' tab of **Side Connector D**, up until the dotted line.
- Place the glued section of the side connector behind the right side of **Section B**, in line, so all the glue is covered (until the dotted line).

- Put glue on the 'Glue 2' tab of **Side Connector D**, up until the dotted line.
- And now, to complete the crown, place the glued section of the side connector behind the left side of **Section A**, in line, so all the glue is covered (until the dotted line).

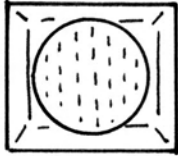

- For smaller heads, while the glue is still drying, shorten the gap on **Connectors C & D** by sliding **Sections A & B** closer together.
- Let dry and model for the camera – make sure to send us a picture of how royal you look!  
E-mail photos to: [halberstaml@ou.org](mailto:halberstaml@ou.org)
- Wear to your seder, so you too can experience the feeling of 'from slaves to kings'
