The Haftorah for Shabbat Chol Hamoed Sukkot

The Haftorah is read from the book of Yechezkel (Ezekiel) 38:18-23, 39:1-16

Ezekiel by: Michelangelo

The Haftorah's Connection to Sukkot: This section from Ezekiel was selected because it discusses the war to end all wars, the War of Gog and Magog or Armageddon. It is believed by some that this war will take place during the month of Tishrei and possibly on Sukkot. That is why we read this Haftara on Chol Ha'Moed Sukkot.

Summary of the Haftorah: This Haftorah deals with the war of Gog and Magog. Gog will be the leader who will rule over a people or country named "Magog". The name Gog means "the dreadful one". It also discusses Gog's punishment. The Haftorah also talks about the vast supply of firewood after the war from all the left over weapons. It also discusses the burial of Gog's armies.

The Story Line of This Weeks Haftorah: Gog will invade Israel with a tremendous army, consisting of people from all the other nations of the world. Their intention is to destroy or capture Bnei Yisrael, preventing the final redemption. Hashem's anger, which has been hidden during the exile, will be

clearly seen and will openly show miracles which will destroy Gog's armies. There will be thunder and lightning, followed by an earthquake. Some opinions say that "Earthquake" means immense fear, but others say it should be taken literally. Gog will still feel secure with his weapons and will still try to invade Israel. Hashem will make the whole earth shake. The armies of Yishmael will turn against each other, overcome with madness and destroy themselves, while the armies of Edom (who according to some opinions is Rome) will suffer from plagues as retribution for what they did against the Jews. The plagues will be stronger than the ones from Egypt.

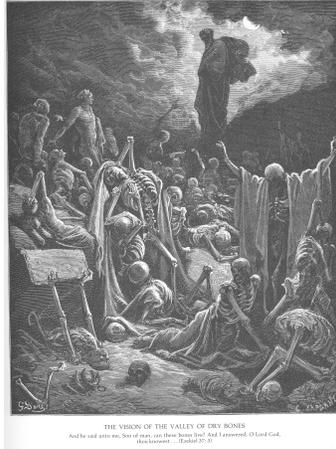

Bnei Yisrael will take all the left over weapons from Gog's armies and use the wood for firewood, and melt down the metal as well. There won't be any need to cut down any more trees for firewood because there will be so many weapons left over. Additionally, there's a special reason that the pasuk emphasizes that the Bnei Yisrael won't need to cut down any more trees. The reason is because in the future, every tree will bear fruit, and it would be Baal Tashchis (Wasting good resources) to cut them down.

The Book of Ezekiel: Ezekiel wrote his own book that is 48 chapters long. The 1st 24 chapters are about the future siege and fall of Jerusalem. The 2nd part of the book, chapters 25-48 talk of the hope, that Hashem will favor the mountains of Israel and remove the Idol worshipping and repopulate the land.
